IV. Operation Manual – Two Connection Ways

V . Parts and Structure

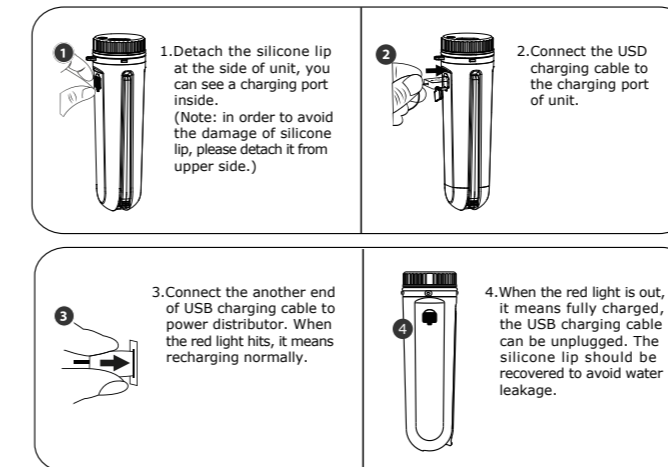

VI. Product Usage:

VII. Charging Guides:

Before using the product, please use the USB charging cable to charge it fully. When the power is low, the waterspray is soft, even stops working. In order to maintain battery better, please charge power as following steps.

The USB charging cable is universal, it can be exchanged with power cord of cell phone with Android system. Please ensure the charging voltage of power distributor is not higher than 5V.

VIII. General Cautions

- 1.The product is integrated design, do not disassemble and modify it.
- 2.The product applies to outside cleaning, no inside cleaning: Do not use chemical cleaner or other solvent water; Do not use the water hotter than 40℃, otherwise it will cause blocking, plastic deformation of seal parts or water leakage of motor.
- 3.The charging port of product is easily to leak water, please do not wash it under faucet or dip it into water, it will cause water leakage of motor, and damage the product.
- 4.The outer casing is plastic, any strong external force will damage the structure and the accessories inside, please avoid drop.
- 5.When the water container is filled with water, a little of water may leak from nozzle, it is normal performance, do not worry.
